TELEGRAPHIC

Crime.

Cleveland, 1.—The police arrested two
highwaymen, identified as foot pads,
who robbed the citizens on Friday night.
The burglars, one of whom confessed
that a gang of twenty is organized here
for this.

Williamsport, Pa., 1.—Ex-county
commissioners McKinney Smith, Wil-
liam C. Ebdler, and Daniel Corson,
were to have been tried to-day for per-
jury, embezzlement and conspiracy, but
Smith having secured his bail was de-
clared forfeited. The others pleaded
guilty of embezzlement and will be sen-
tenced hereafter.

Worcester, Mass., 1.—Nelson Ray-
mond, aged 16, playing with his revolver,
killed his brother Joseph, aged 10.

Charleston, S. C., 1.—Dave Roberts,
the negro in Abbeville jail, this state,
on the charge of cotton stealing and
murderous assault, was taken out
and lynched last night. Admittance to
the jail was obtained by stratagem, and
the sheriff was overpowered.

Boston, 1.—The United States grand
jury has found another indictment
against Abner I. Bayon, fugitive ex-
president of the Pacific National Bank.
The charge alleged is making false
returns to the comptroller of the cur-
rency. It is understood that Bayon is
in Canada.

Richmond, 1.—At Tazewell Courthouse
on Thursday night, a mob took posses-
sion of the jail and shot to death Buford
Smith, a negro, for the murder of Charles
Kenzie, a white man.

The Cuban Refugees.

Madrid, 1.—La Tribuna publishes a
letter from the Cuban refugee, Macoo.
He protests against his imprisonment,
denying that he is now a political pris-
oner. Macoo relates the circumstances
of his arrest in Cuba. He stipulated
with the Spanish general in the presence
of the English and French consuls, that
he and companions should be pardoned
on condition of their voluntary exile to
Jamaica. Accordingly they embarked
on board an English steamer but the
vessel was stopped when four miles from
land by two Spanish gun boats and the
Cubans were forcibly conveyed to Porto
Rico, and afterwards to Shufarine Is-
lands, off Morocco. With reference to
his surrender by the British at Gibraltar,
Macoo affirmed that the Spanish consul
asked the English police to arrest certain
convicts who escaped from Cienfuegos. He
protests against the violation of the ex-
tradition treaty of 1871.

Cleveland Crime.

Cleveland, 1.—During the past month
forty-seven cases of burglary and high-
way robbery have been reported, the
value of property taken ranging from \$1
to \$1,400. In several instances stores
were broken into, safes blown open and
men were "held up" nightly in the
Central Park of the city, but the police
failed to detect a clew to the criminals.
On Saturday night the police were at-
tired in citizens' clothes, in accordance
with a suggestion by newspapers, and
arrested four burglars, two footpads and
a half thief. Twenty toughs banded to-
gether for the purposes of plunder and
are responsible for nearly all the crimes
which have occurred, according to the
story the arrests tell.

Railroad Lands.

Washington, 1.—Senator Van Wyck
has telegraphed settlers on Denver and
St. Joseph railroad lands that no steps
have been taken by Kinsvals or others
claiming railroad titles to dispossess them
and no such steps will be taken till the
question has been finally disposed of by
Congress, and that Congress will without
doubt enact laws to protect settlers
enable them to settle satisfactorily with
claimants.

St. Louis, 1.—The land department of
the St. Louis and San Francisco Rail-
road has been placed under the direct
management of Captain C. M. Rogers,
general manager of the road, since the
death of Col. M. H. Coffin.

Industrial Items.

St. Louis, 1.—The Amalgamated Iron
and Steel Workers Union met last night
and declined to accept the reduction of
wages proposed by the Ore and Steel
Company. It is not unlikely, however,
a compromise will be effected.

Lancaster, Va., 1.—Fulton Cotton
Mill No. 5, has suspended operations
owing to the dullness of trade; 200
operatives are thrown out of work.

Camden, N. T., 1.—Star's extensive
iron foundry will be sold at a merchant's
sale, owing to the dullness of trade.

Indianapolis, 1.—The water works are
completed. Capacity, 15,000,000 gallons
daily, which was turned on this after-
noon.

Earthquake.

Rockland, Me., 1.—A shock of earth-
quake was felt throughout this city and
vicinity last night, followed by a storm
of thunder and lightning.

Halifax, 1.—While watch night ser-
vices were proceeding in a number of
city churches last night, a shock of
earthquake was felt lasting thirty sec-
onds. Many buildings were shaken, and
several crowded churches were almost
panic created.

The Indian Troubles.

St. Louis, 1.—Advices from Indian
Territory, say a pioche's force has dis-
banded, and the trouble is over for the
present. Part of this band retreated to
the reservation of the Sac and Fox In-
dians, but they are now scattered and not
likely to come together again. Chicote
and force returned to Okmulgee, with
the exception of a few scouts, who are
still on the western border.

The Floods.

Berlin, 1.—The Rhine has ceased to
rise. The water of the upper Rhine
and main begins to recede.

Wiesbaden, 1.—The Rhine floods de-
stroyed five villages. Two hundred and
fifty houses have fallen.

Vienna, 1.—The rain recommenced to-
day. The Danube is rising and it is
feared it will break through the dykes.

Small Pox.

Baltimore, 1.—Seventy-six deaths from
small pox the past week. To-day a case
occurred in the city jail, and over 300
prisoners confined for minor offenses,
were disinfecting. The disease is attri-
buted to inefficiency and neglect in the
health department.

Trenor W. Park.

New York, 3.—The funeral services
of Trenor W. Park were announced for
this afternoon from Collegiate Reformed
Church, this city. The body is to be
interred in Greenwood.

Resolutions were passed on Saturday
by directors of the Panama Railroad;
also directors of Wall Street National
Bank, eulogizing the deceased. The
former say he has shown himself to be a
worthy successor of the founders of the
great international highway across the
continent. This board and the stock-
holders of the company owe the deceased
a debt of deep gratitude for his wise ad-
ministration of the affairs of the company
in which he exhibited the great sagacity
combined with the highest integrity,
qualities which were ever conspicuous in
his every action, that concerned the in-
terests of this company.

A Man on Fire.

New York, 1.—During religious ser-
vice in the Academy of Music, Brook-
lyn, this afternoon, matches in a man's
pocket set his clothing on fire. He dashed
down the aisle to the street, where the
flames were extinguished. The congre-
gation seeing the rapid movements and
smoke in his wake, quickly left their
seats and in a panic rushed for the exits.
Finally, realizing there was no fire in
the building, they returned to their seats
and services were resumed.

Non-Sectarian.

Boston, 1.—The governor and execu-
tive council amended the by-laws and
rules of the state primary and reform
schools, by adding provisions that the
superintendent have the charge of reli-
gious instruction of inmates, which
they insist be non-sectarian. He may
invite clergymen of various denomina-
tions to officiate, but their attention
must be called to the regulation. Special
services may be held by Roman Catholic
priests every Sunday, and instruction
given by them once a week.

Nilsson's Kindness.

Chicago, 1.—The Times, referring to
Nilsson's kindness in singing for com-
mon laborers in California, says this is
an exhibition of unusual good nature, a
quality for which the prima donna is not
distinguished. It is no doubt the re-
sult of the glorious climate of California.
Operatic singing girls should not fail to
visit that section of the country.

The Chinese.

New York, 2.—The Sun: The Chinese
question is becoming more and more
complicated. The treasury department
has decided that a Chinese wet nurse
must be considered as a laborer, and as
such be excluded from admission to the
United States under the provisions of
the act restricting Chinese immigration.

BEYOND THE RIVER

Away Across the Mississippi is
Held a Convincing Conference.

"I tell you sir, that they are one of the
most combative ever produced, and my
experience of that sort of thing has been
wide enough to entitle my judgment to some
respect."

"Oh I don't know," responded the first
speaker's friend, with a little yawn, as though
he didn't take much interest in the subject.
"I have never been able to see much differ-
ence in these things. They are all pretty
nearly the same size, and made of about the
same stuff."

The talk, of which the foregoing is a frag-
ment, took place in Gallatin, Missouri, not
long ago, in the snug office of Dr. M. P.
Flores, one of the leading physicians of the
state, who followed up the vein in which he
had introduced it substantially in these
words:

"Nonsense, that is a rigmorole of a boy, or
rather of a man who either doesn't know, or
doesn't care what he says. Those things, as
you call them, are just as different as the
moon is from green cheese. Now, liniments
and ointments are very good in many
cases for the relief of pain or inflammation.
But, in the first place they are unclean. They
soil the hands and the linen, besides being
always out of reach when they are most
wanted."

"Well, my dear doctor," sighed the traveler
from the north, "what would you have? This
is a wretched world anyhow, and nothing is
ever at hand when it is wanted. You can't
suggest anything."

"Yes I can," broke in the doctor, thumping
the table with his fist. "I can suggest BEN-
SON'S CAPSINE POROUS PLASTER. I
have tried it on my patients, and I have tried
it on myself for an attack of Rheumatism,
in all cases relief has followed in from three
to forty-eight hours. The old plaster are
stagnant coaches—the Capsine is a telegraph
dispatch. For instance, in case of Neural-
gia, Muscular Rheumatism, Lumbago, re-
tarded action of the Kidneys, and—"

"I give it up, doctor, and in case of need
I'll buy Benson's," said the traveler, pleas-
antly.

In the center of the genuine is cut the word
CAPSINE.
